News – Information – June 2021

New SuperSail App. Version 2.91.

The sailing season 2021 is now well in progress and at SuperSail we are continuously working to further enhance our SuperSail Marine Alarm solution as well as our SuperSail Yacht Telemetry and Monitoring solution for the professional market. Please visit us at: www.super-sail.dk.

Version 2.91 of the SuperSail App:

Our new Version 2.91 of the SuperSail Owners App. will be released to AppStore and PlayStore within a few days.

SuperSail now introduces:

- Wireless SuperSail Temperature og Humidity (T/H) Sensor
- Possibility to connect up to 5 of:
 - Temperature (T) Sensors
 - Temperature/Humidity (T/H) Sensors
- SuperSail Start Battery 1 Voltage Monitoring

- *SuperSail Start Battery 2 Voltage Monitoring *)*
- *SuperSail Generator Battery Voltage Monitoring *)*
- *SuperSail Bow Thruster Battery Voltage Monitoring *)*
- *SuperSail NMEA 2000 Gateway *)*

****) Requires you to install our new SuperSail M-UnitA+ Monitoring Unit which over time will replace our present SuperSail M-UnitA .***

The new wireless SuperSail Temperature og Humidity (T/H) Sensor:

- The new SuperSail wireless sensor monitors both temperature and humidity in ie. the bathroom, the sail compartment, the pantry, the saloon-upholstery, engine room, tank and water installations etc. The yacht owner can then be alerted via SMS if the temperature and/or the humidity surpasses the user defined limits.
- **PLEASE NOTE!!!** Our popular wireless Temperature (T) Sensor will continue as a part of the SuperSail Sensor offering
- Price for the SuperSail wireless T/H sensor is: 195,- EURO incl. VAT.

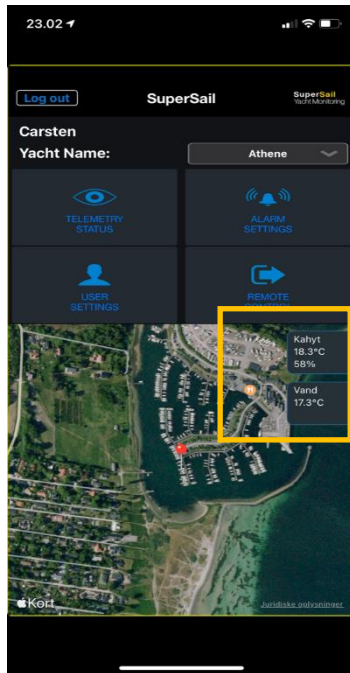

The SuperSail Temperature and Humidity (T/H) sensor is wireless, elegant, discreet and easy to mount and fit into the Yachts interieur.

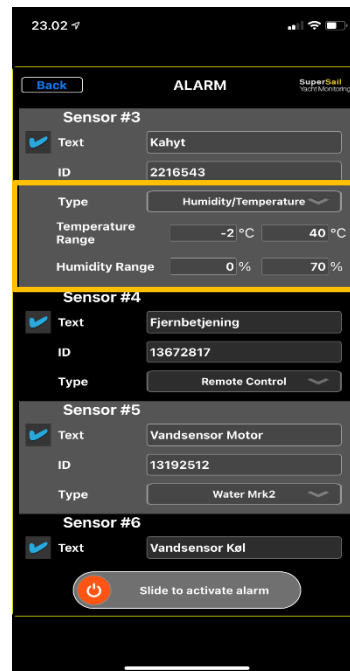

SuperSail Humidity/ Temperture sensor

The frontpage of the SuperSail App shows Temperature (T) og Temperature/ Humidity (T/H) and where the sensor is located on the Yacht for each of the installed sensors. Up to 5 Temperature (T) and Temperature/ Humidity (T/H) sensor can be installed.

- It is very easy to install and connect the SuperSail's Wireless Temperature and Temperature/ Humidity sensors. Push **Alarm Settings** and go to the section **Sensors** where you enter the sensor ID, where the sensor is located on the Yacht and the user defined max-min alert limits.

Temperature and Humidity

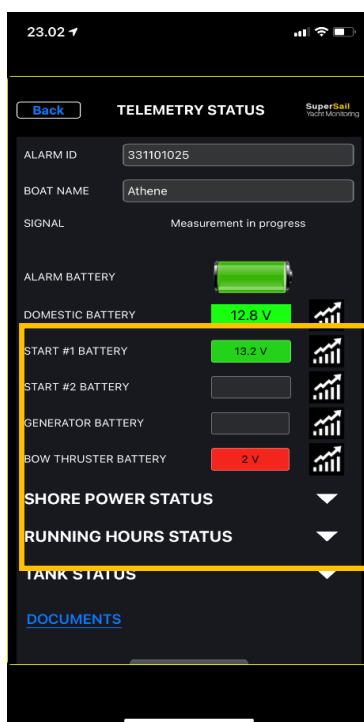

T/H Sensor set-up

IMPORTANT!!! For the SuperSail Users who already has a wireless SuperSail Temperature (T) Sensor installed we recommend checking that the user defined temperature limits are still correct after upgrading to Version 2.91!

The new SuperSail Voltage Monitoring Unit:

With the new SuperSail Voltage Monitoring Unit it is now possible to monitor the Yachts Start Battery voltage and as well show the voltage history for the Yachts Start Battery.

- The installation is very simple – the 3 wires from the Voltage Monitoring Unit is connected to the Start Battery plus and minus and the SuperSail Monitoring UnitA.
- The Price for the SuperSail Battery Monitoring Unit is: 109,- EURO incl. VAT.
- ***If the Yacht is equipped with the new SuperSail M-UnitA+ it is possible to add the below battery banks to be monitored:***
 - *SuperSail Start Battery 2 Voltage Monitoring*
 - *SuperSail Generator Battery Voltage Monitoring*
 - *SuperSail Bow Thruster Battery Voltage Monitoring*

Start Battery Voltage in the App

SuperSail Voltage Monitoring Unit

The new SuperSail NMEA 2000 Gateway:

With the new SuperSail NMEA 2000 Gateway it is now possible to get access to a select set of boat data.

- Assuming that the data are available on the Yachts NMEA 2000 network the following information can now be shown in the SuperSail App:
 - Engine Hours for engine 1 and 2
 - Fuel Tank 1&2 level
 - Fresh Water tank 1&2 level
 - Grey Water tank level
 - Black Water tank niveau
- ***Installation of the new SuperSail NMEA 2000 Gateway requires that the boat is equipped with our new SuperSail M-UnitA+ Monitoring Unit***
- Price for the SuperSail NMEA 2000 gateway is: 595,- EURO incl. VAT

SuperSail App. Version 2.91 -- What to do:

- From AppStore for iOS telephones and from PlayStore for Android telephones you will **receive a notification** when the new SuperSail Version 2.91 App. is available.
- Your settings will **not be changed** when you install the new App.
- When the App. is installed you just **use your present login**.
- We **recommend that you update to the new Version 2.91** in order to ensure that the latest security updates will be applied

***** **SuperSail 2021 Special Offer** *****

Are you interested in upgrading your SuperSail Yacht Monitoring System adding our new SuperSail M-UnitA+ and our new NMEA 2000 Gateway in order to get access to all the new Yacht Information?

The following is required:

- Installation of the new SuperSail M-UnitA+.
- Special offer ex. Installation: **595,- EURO incl. VAT** – (normal price 895,- EURO) by returning the present M-UnitA. **This special offer is valid until 31/12 2021!**
- Installation of the new SuperSail NMEA 2000 Gateway

You are indeed welcome to contact us in order to get information and advice with respect to all the possibilities you have as a SuperSail Marine Alarm and the possibility to **upgrade to the more advanced SuperSail Telemetry Solution**

We are as always very interested in your general feed-back and good ideas – so do not hesitate to contact us!

SuperSail wishes you a continued good and safe sailing season 2021!
